PHE Strategy 2020-25 Executive Summary - GOV.UK

expanding our understanding of health and disease. The knowledge and evidence we gain from this can be used to create real change through policies and services. For example, whole genome sequencing is already helping us to deal more quickly and decisively with disease outbreaks and food safety incidents. Harnessing progress in science and research

Tackling inequalities in healthcare access, experience, and ...

These analyses did not account for the effect of occupation, comorbidities or obesity. These are important factors because they are associated with the risk of acquiring COVID-19, the risk of dying, or both. Other evidence has shown that when comorbidities are included, the difference in risk of death between ethnic groups among

Standards of proficiency for specialist community public …

The role of the SCPHN school nurse in the 21st century. School nurses lead services which aim to improve the health and wellbeing of the school age population and they are able to provide local support for children and young people in educational and other community settings. They are autonomous practitioners and champions for children's ...
